Utah Matters.

A letter from the special Washington correspondent of the San Francisco *Bulletin*, appears in that paper of March 8th, from which we make the following extract:

WHAT IS TO BE DONE WITH THE MORMONS?

This is one of the questions agitated here at the present time. The Gentiles of Salt Lake City are represented by many ex-officers and soldiers who served under Gen. Connor. They urge the prompt inauguration of a new policy in regard to Utah, such as the passage of Weller's proposed amendment to the anti-polygamy law; the denial of power to the Territorial Courts to naturalize foreigners; the establishment of a United States Land Office at Salt Lake City, so that Gentiles may be furnished facilities for pre-empting lands; and in addition, a sufficient military force to put all these measures into vigorous operation. The appropriate committees of the House have been solicited to prepare bills in accordance with these amendments, but there is so much time engrossed by the "reconstruction" question, that little earnestness can be enlisted in behalf of Utah matters. Ashley, Chairman of the House Committee on Territories, declines to do anything, because he alleges the President would not carry out any policy that Congress might adopt, however wise. Some of the "Gentiles" who have been turned off by him with such excuses, are so uncharitable as to insinuate that his recent journey "across the continent," during which he tarried some time at Salt Lake, has made him too liberal on the side of Brigham Young. [Moreover, we believe Ashley has been bought, body and soul, by the Mormons.—EDS. VEDETTE.]

But if the Gentiles are making little progress, the Mormon Representative in the House is doing no better in the way of procuring legislation for the opposite side. He has presented a memorial from the Utah Legislature, asking a donation of all the lands whithin the corporate cities and towns of that Territory for school purposes. This apparently modest request has been ventilated by the Gentile opposition, to its utter ruin. It appears that the corporation of Salt Lake City extends over ground eight miles long by six broad—48 square miles—and that the United States military station at Camp Douglas covers part of the land which Congress is asked to donate to the "Saints." The Mormons, however, are rapidly getting possession, which is nine points towards title, of all the lands in Utah that are available for agricultural purposes. As fast as their young men come of age they are required to pre-empt the full amount of land allowed by law. The foreign immigration to the Territory is from 5,000 to 7,000 per annum, and each matured male is naturalized by the local courts and made a landholder as soon as possible. The population of Utah is already estimated as high as 150,000. How long will it be, under the practice now permitted, before every available acre of land in Utah will be held in possession of Mormons, leaving them in supreme control to perpetuate their disgusting practices in the midst of an enlightened government? There is now no chance for a Gentile to secure a farm or homestead in Utah, for the Mormons have complete power, and either murder or drive out whoever lays claim to an acre of land. Dr. Robinson was murdered because he took legal steps, according to United States laws, to procure a homestead near Salt Lake City. There are now several Gentiles in this city who, after taking the initial steps towards procuring land, were given notice to leave the Territory within thirty-six hours. With the example of Dr. Robinson before them, they left of course. To make the monopoly within the Church complete, no Mormon is allowed to sell land to a Gentile.

By this policy Brigham Young is extending his power, and if he is allowed to continue in his course ten years longer, his people will own and rule an entire State, in which neither the lives nor the rights of citizens of the United States will have the slightest protection. The only way to check his career is to provide military protection to Gentile immigrants until American citizens become sufficiently numerous to protect themselves, politically and otherwise. It was hoped the Pacific Railroad would call people into the Territory, temporarily, at least, in sufficient numbers for mutual protection, and to form a nucleus for permanent population. Should the Central and the Union divisions of that work approach each other at or near Salt Lake City, as has been anticipated, there would be some twenty-five thousand men employed for some time in that neighborhood, many of whom might conclude to stay there after the railroad was completed. But the astute Brigham Young foresees the threatened evil to his institutions, and is preparing to ward it off. He proposes to build the road with Mormon labor from Salt Lake City, east and west, one hundred miles, at so low a rate that the companies will find it for their interests to give him the contract. This will furnish him with cash and free him from interlopers until all danger is over. It is a most sagacious conception on his part. Take him all in all, Brigham Young is a most dangerous man. He is organizing and consolidating a debased community, at enmity with the institutions of the country and with enlightened Christianity, which is as completely subject to his will as his own right arm. Fully determined on setting up a system and government of his own in the midst of another government that is superior and antagonistic, he must necessarily be compelled, sooner or later, to abandon his purpose. It is surprising that Congress and the President have suffered him to reach his present position of power, and still more so that they now hesitate to take prompt measures to crush him.

SUTRO TUNNEL.—In San Francisco, on the 7th inst., that being their principal office, the Savage Mining Company's Trustees subscribed $150,000 to the Sutro Tunnel enterprise. Commendable! This makes $350,000 subscribed by three companies. $500,000 is all that is required as a starter; as eastern capitalists will then furnish other means to push the work forward. Congress, too, will extend some aid at the present session. Gold Hill News.

FATAL RESULT.—The San Francisco *Bulletin*, of February 25th, says:

Isaac Leopold, the young man who fell from Torning's paint shop into the street on Washington's birthday, in consequence of the flag staff breaking, died of his injuries at the County Hospital yesterday. Deceased was a native of Michigan, aged 20 years, and has parents residing in this city.

Salt Lake City, November 5, 1866.

The Department of the Pacific.

Militarily considered, Utah has for the last few years been a very shuttlecock, tossed hither and thither between the battledores of the Departments of the Pacific and the Missouri. In 1862, it belonged to, and drew its military forces and supplies from the Pacific Department. Subsequently, in 1864, we think, it was attached to the Department of the Missouri, and its supplies came trailing over the Plains, a distance of twelve hundred miles. Still some of the bureaus, viz., the Paymaster's and Commissary of Muster, always remained in the Pacific jurisdiction. Just where Utah, militarily, now belongs, we are unable to say, whether to the Missouri, the Platte, or the Pacific department. Perhaps some of our friends at Camp Douglas know. The last we heard of the subject induced us to think that Utah belonged to the Eastern rather than to the Western jurisdiction, and we have seen no announcement of the transfer of the district of Utah to the Pacific department.

In the Sacramento *Union*, of the 7th inst., however, we find the following advertisement seemingly bearing on the question, and otherwise, of interest to the people of the Territory:

PROPOSALS.

OFFICE CHIEF QUARTERMASTER, DEPARTMENT OF CALIFORNIA, San Francisco, March 2, 1867.

Sealed Proposals are invited by the undersigned until 12 M., March 30, 1867, for receiving, in the Government Warehouses in this city, Military Stores, and transporting the same to the Interior, as follows:

To Camp Douglas, Utah, 500 tons, more or less.

To Helena, Montana, 500 tons, more or less.

Bidders will state the price per pound, in gold coin.

Bids are also invited for the transportation from Camp Douglas to other posts in Utah, and from Helena to other posts in Montana, stating the price per pound for one hundred miles.

No bids will be received without bonds, giving sufficient guarantee that the bidder will accept the contract, if awarded him.

The contractors must be prepared to receive the stores by the 1st of May.

This advertisement to be paid for *pro rata* by the contractors.

R. W. KIRKHAM,
Bvt. Col. and Dep. Q. M. Genl.

That looks as though Utah had again been transferred to the Pacific Department, or, at least, that it was intended to draw its supplies during this year from California. The large amount of transportation required, five hundred tons, equal to one million of pounds, mainly, it is presumed, commissary supplies, would seem to argue that there was to be a very considerable increase of the military force in this district. The number of troops now at Camp Douglas is very limited, barely sufficient, we understand, to perform garrison duty and take care of Government property. The only other post in the Territory, we believe, is Fort Bridger, although Gen. Babcock in his report speaks of another (Fort Union); the whereabouts of which the military authorities, as well as people generally, are somewhere at a loss to fix.

The advertisement above quoted invites bids for transporting military stores from "Camp Douglas to other posts in Utah." Whether such other posts are contemplated to be established in the future we have no other means of knowing than what may be inferred from Col. Kirkman's proposals.

This apparent new change in the source whence the Utah military are to draw their Quartermaster and Commissary supplies during the year 1867, may possibly be induced by the apprehension of Indian difficulties along the Platte and between the Rocky Mountains and the Missouri. The indications are not slight that a general Indian war will prevail to the eastward of us as soon as the grass shall be sufficiently advanced to furnish feed for the Indian ponies, and we may look out for raids along the line of travel. Should such be the case, and serious obstructions in our communications ensue, the provision, about being made by Colonel Kirkman, for transporting supplies from the West, would turn out to be wise and prudent.

This large offer from a single customer, Uncle Sam, affords those interested in the Colorado River route, a fine opportunity to exemplify its feasibility. With but about three hundred and fifty miles of land carriage, the remainder of the route, from San Francisco to Salt Lake City, being by sea, via the Gulf of California, and by the Colorado River, they could greatly underbid the prairie-schooners and mountain dug-outs. If, then, the several Colorado navigation companies are at work in earnest, they will be heard from when Col. Kirkman opens those "sealed proposals" for freight to Utah.

SAD ACCIDENT.—The Sonora (Cal.) *Herald*, of February 23d, has the annexed:

On Monday last, Daniel Cutting, father of Charles Cutting, of Chinese Camp, left that place with a two-horse team to convey a family to Stockton. He arrived there all safe, and, taking in a light load, started on his way home. In attempting to cross Six Bit Gulch, a short distance below Chinese Camp, on Thursday night, the current proved too strong, and Cutting, together with both horses, was drowned. His body was found on Friday morning, several hundred yards below the crossing, when word was sent to his son, who, with some friends, took the corpse to Chinese Camp. The horses were found near by, detached from the wagon, and the wagon itself a total wreck. Cutting was about fifty-eight or fifty-nine years old, a hale, hearty old man, and a respected citizen of the community.

MRS. COLT of Hartford, Connecticut, is about to erect a church in that city, to cost $50,000.

BY PACIFIC TELEGRAPH.

[SPECIAL TO THE "DAILY UNION VEDETTE."]

Washington, March 19.

In the Senate, Conness introduced a resolution declaring that it frequently happened that the proceedings of the Senate in Executive session were published by the newspapers, contrary to the injunction of the Secretary of the Senate, and calling for the appointment of a committee of three to investigate the matter, with power to send for persons and papers. At the suggestion of Conkling, the resolution was ordered to lie over for the present.

Cole introduced a resolution authorizing and requiring the Secretary of the Treasury to cause an investigation to be made as soon as practicable, by officers of the U. S. Coast Survey in California, as to the expense of improving the harbor in the vicinity of Point [Suscol?] on the coast of California, and requiring the Secretary of War to cause estimates to be made of the amount necessary to be expended to render such harbor available for the purposes of commerce. Adopted.

Ramsey introduced a bill amendatory of the Act to aid the construction of railroads and telegraphs from the Missouri river to the Pacific Ocean, approved July, 1862. It provides that the roads of the several Companies shall be so constructed that when completed they shall, in connection with a branch road to Sioux City, westward, continue railroad communication between the terminus of the Union Pacific Railroad and the head of Lake Superior. Referred to the Pacific Railroad Committee.

Cole introduced a bill to further define the qualifications of members of Congress. It provides that no person shall be eligible to either House of Congress who has voluntarily borne arms against the United States, while a citizen thereof; or who has voluntarily given aid, countenance, counsel or encouragement to persons engaged in armed hostility thereto; or who has sought or accepted, or attempted to exercise the functions of, any office whatsoever under any authority or pretended authority in hostility to the United States; or who has yielded voluntary support to any pretended government, power, authority or Constitution, in the United States, hostile thereto. Referred to the Judiciary Committee, and ordered printed.

The supplementary Reconstruction bill was received from the House. On motion of Mr. Trumbull, the Senate refused to recede from its amendments. Trumbull, Wilson and Buckalew were appointed a Committee of Conference on the part of the Senate.

The case of Thomas, the Senator elect from Maryland, was referred to the Judiciary Committee, without debate.

Washington, March 19.

The Senate has confirmed Joseph J. Bartlett as Minister at Stockholm; Peter J. Sullivan as Minister to Bogota; E. C. Holmes, Register of the Land Office at Denver, C. T.; G. C. Havens, Land Receiver at Stockton, Cal.; Thomas J. Bidwell, Postmaster at Chico, Cal.; Wickham Hoffman, of La., Secretary of Legation at Paris; John W. Dix, Asst.-Sec'y of Legation at Paris; H. M. Brent, Secretary of Legation at Lima; J. A. Grosse, Secretary of Legation at Rio de Janeiro.

Washington, March 19.

In the House, the Speaker communicated the fact of the Senate's disagreement with the House on the amendments to the supplementary Reconstruction bill. The House, by a vote of 62 to 77, refused to recede. Wilson of Iowa, Boutwell, and Marshall were appointed a Committee of Conference.

On motion of Banks, the Committee on Foreign Affairs were instructed to inquire and report what measures have been taken by foreign Governments or capitalists to secure a controlling interest for rival nationalities in any of the routes or franchises of transit across the Isthmus of Panama, Honduras, or Tehuantepec, and what action it may be advisable for this Government to take to secure the interests of American commerce on such transit routes.

The Speaker laid before the House a message from the Senate announcing that it had agreed to the report of the Committee of Conference on the supplementary Reconstruction bill. Thereupon, Wilson, on the part of the House Conference Committee, reported the bill as agreed upon, and, after a brief discussion, the bill was passed. It now goes to the President.

House adjourned.

Washington, March 19.

A dispatch from Selma, Ala., states that the largest meeting ever witnessed in that city took place yesterday, at which resolutions were unanimously adopted strongly expressing Union sentiments, recognizing the right of Congress to prescribe terms of reconstruction and readmission of seceded States into the Union, and therefore urging the people of Alabama to forthwith accept the benefits of the terms of reconstruction.

A train conveying United States troops passed over the Hudson River railroad yesterday, destined for Oswego, and undoubtedly intended to operate against any Fenian movement which may be attempted on the Canadian frontier.

The Fenian news by the latest dispatches gives little or no encouragement to the Brotherhood, and there is a perfect stagnation of the excitement which prevailed during last week. The belief is becoming general that nothing like an insurrection was initiated in Ireland, and that whatever disturbance occurred was quickly and easily quelled. The movement on Canada, however, is attracting more general attention, as its inauguration is believed to be near at hand.

Advices from British Honduras to the 22d ult. state that subsequent to the reverses heretofore reported, the British troops gained a very important victory over the Indians who had been raiding on the colonists. Quite a number of Indians, men, women and children, were killed by rockets thrown into the retreating crowd. Many of the Indian villages were burned, and their cornfields laid waste. Considerable discontent existed in the public mind in Belize.

The suit of the United States vs. certain champagne wines of the Lee d'Or and Carte d'Or brands, of which Locke & Montagne are claimants, is on trial in the U. S. District Court. This suit was tried about a year ago, when a verdict was rendered in favor of the Government. Judge Field subsequently granted a new trial on points of law.

On the 10th of December the ship Golden Sunset, the wreck of which was reported yesterday, made Birnie's Island, one of the Phœnix group, and on the following morning about two o'clock, the weather being very thick, she struck on the reef off Enderby's Island. Everything possible was done to save the ship, but to no purpose. One seaman was drowned by the capsizing of the gig in landing, but the remainder of the crew, and passengers, were landed in safety. The disaster is attributed to the incorrectness of the charts of this group of islands. The existence of Enderby's Island, as well as of Phœnix Island, is laid down on the English Admiralty charts as doubtful, and in the charts of Capt. Titmarsh, of the Golden Sunset, Phœnix Island is not laid down at all. The British Commissioners at Honolulu investigated the circumstances of the disaster and acquitted the captain and officers from all blame. The shipwrecked persons remained eleven days on the island, when they were taken off by the Kamehameha for Honolulu. One white man and two Hawaiians, employed by a guano company, resided on Enderby's Island, and shared their slender stock of provisions with the shipwrecked party. The vessel will prove a total loss. She was an iron vessel, of 628 tons burden, with iron lower masts and wire rigging. She broke up on the eighth day after the wreck, and portions of her cargo of coal, as well as her cabin furniture and provisions, were being washed ashore daily. Her passengers and crew arrived here to-day on the bark Camden.

PARTICULARS ABOUT THE AVALANCHE ON THE SUMMIT.—We find the following particular account of the great snow-slide on the Donner Lake route in the Dutch Flat *Enquirer* of March 9th: "We are indebted to R. Penny, the foreman of the camp that was buried by a snow-slide on Saturday morning last, March 2d, for the following particulars of the lamentable occurrence. The camp is a log house situated a short distance east of the large tunnel being run by the Central Pacific Railroad through the summit, and contained at the time of the slide fifteen white men. The avalanche took place about half past 4, while all in the house were in bed, smashing in the roof and covering the entire house with snow to a great depth, and making prisoners of every one within for from twelve to fourteen hours, the bunks ranged around the walls protecting all save three of the inmates, who were killed. Ten of the fifteen were rescued without being injured, two were badly bruised when taken out, but are now doing well and will probably recover in a short time, and three, as before stated, were killed outright. The following particulars were gathered by our informant from an examination of the papers of the men killed: Thomas Inglis was a Scotchman by birth, being from Peebleshire, and was 50 years of age; he had been ten years in California, and had worked at mining in this county, near Pine Grove, formerly he came to this State from Pittsburg, Pennsylvania, where he leaves a family. James Duffy came to this State in 1864, and formerly lived and worked in Sacramento; he has a brother and other relatives in Chicago, Illinois; he was about 35 years of age. James Nagle was about 25 years of age, by birth an Irishman, and came to this State in 1861 from Philadelphia. The three bodies were brought down on the railroad on Thursday last, one was buried here, and the other two carried below."

A DAKOTA TRIP.—Dr. Burleigh, Delegate from Dakota, has organized a party in Washington for a trip to Dakota, to start on June 1st. The party will consist of Senators Wade, Patterson of New Hampshire, Chandler, Poland, Howard, Yates and Morrill; Representatives Williams, Coode and Bingham; Hon. E. McPherson; and Chief Justice Carter. They will have a military escort and Indians to supply them with subsistence, and will be gone about three months.

The Virginia *Enterprise* of March 11th, has the following:

Saturday evening Lieutenant Starr, with ten soldiers, and Mr. Condon, arrived on a special stage, via Donner Lake, with the sum of $230,000 in coin for Wells, Fargo & Co. The huge boxes of treasure attracted considerable attention, and will enable the mines to pay all their employees.

Yesterday a brace of the sporting fraternity became involved in a dispute at a den of "ye tiger," and adjourned to the street for a solution of the pending trouble. The one, A. Arbuckle, better known as "Slim Jim from the Boneyard," was armed with a six-shooter; the other, Tom Byrns, had a single-barreled pistol. At the corner of D and Taylor streets, hard words culminated in Byrns discharging his popgun at Jeems—the ball taking effect in his vest pocket, over, near to and in the region of the fifth rib. A clinch ensued, and Jeems, supposing himself mortally wounded, was, of course, weak, and Byrns succeeded in getting possession of his six-shooter, when he delivered himself to a citizen to be taken to the Stationhouse. Arbuckle thought himself shot through and through, and desired surgical aid, as he said he had felt the bullet passing around his ribs. But when it was ascertained, through examination, that the bullet had not even drawn the "claret," we rejoiced in Jeems' safety and longer existence in a world of sin and sorrow. This morning, both shooter and shot appeared before Recorder Meagher, plead guilty, to a charge of disturbing the peace, and were fined $100 each. Costly amusement for no blood.

CALIFORNIA CANDIDATES.—The San Francisco *Times* announces the following as aspirants for Congressional honors:

For the Southern District—T. G. Phelps, Geo. Barstow, Joseph S. Wallis, John Reynolds, M. C. Briggs, D. C. McRuer, James McShafter, Walter Van Dyke, Dr. John F. Morse.

For the Middle District—Wm. Higby, of Caleveras; J. G. McCallum, E. H. Heacock, Newton Booth, and John E. Benton, of Sacramento; J. W. Dwinelle, of Oakland; C. A. Tuttle, of Placer; Bronnell, of Amador; John Yule and J. E. Hale, of Placer; Dr. A. B. Nixon, of Sacramento.

For the Northern District—John W. Bidwell, of Butte; William H. Parks, of Yuba; —— Pratt, of Sierra; Chancellor Harison, of Napa; —— Foulk, of Siskiyou.

It also announces as candidates for Governor:

F. F. Low, of Sacramento; James M. McShafter, Frank Pixley, Caleb T. Fay, George C. Gorham; Dr. L. C. Gunn, H. P. Coon, Horace Hawes and Sam. Soule, of San Francisco; John Bidwell, of Butte; A. A. Sargent, of Nevada; J. E. Hale, of Placer; Lewis Cunningham, of Yuba; C. T. Meader, of Stockton; T. N. Machin, of Marin; C. H. Swift, of Sacramento; George Oulton, of Siskiyou; Dr. Samuel Merritt, of Alameda; B. B. Redding, of Sacramento.

FATAL ACCIDENT.—The following dispatch appears in the Sacramento *Union*:

Lincoln, March 10.

An accident of a serious nature occurred here about five o'clock last evening. J. W. S. Kennedy had left his team standing unhitched, and through some cause the horses became frightened and started to run. Kennedy, in an attempt to stop them, was struck down by one of the horses, and the wagon, partly loaded with lumber, passed over his body inflicting injuries of which he died in a few hours. He leaves a wife and four small children to mourn his loss.

This Company having greatly enlarged their Refining Works, and introduced many other important improvements, are pleased to announce that they feel warranted in again reducing materially their terms of doing business.

The Tariff of Charges

Which they now submit to the public—considered with reference to the cost of material and labor—is lower than in any other part of the world, and secures to the mining interest of this coast an important increase in both the minting and commercial value of bullion.

Their charges hereafter will be as follows:

For Assaying Deposits for Unparted Gold Bars.

One-eighth of one per cent. (heretofore a quarter) for all amounts over $1,600, and two dollars for any smaller sum. Returns made in twenty-four hours.

For Assaying Deposits for Unparted Silver Bars.

Two dollars for the gold contained, up to $1,600, and one-eighth of one per cent. for all amounts over that sum, and one per cent. on the silver contained. Returns made in twenty-four hours.

For Refining Deposits made for Coin or Fine Bars.

On bullion under 300 parts gold, 2 cents per ounce.
On bullion from 300⅛@600 parts gold, 4 cents per ounce.
On bullion from 600⅛@750 parts gold, 6 cents per ounce.
On bullion from 750⅛@949⅛ parts gold, 8 cents per ounce.
Above 950 the only charge will be for coinage. But there will be no charge for refining less than two dollars.

For Coining Gold.

This charge will be the same as at the Mint—a half of one per cent.—and which is paid by us to that institution. But there will be no charge in future for making fine gold or silver bars from bullion refined by us.

Returns in Coin Made in Forty-Eight Hours.

Silver contained in deposits for coin will be accounted for at the same rate customary at the Mint.

Gold bars of other Assayers in good standing, will be cashed by us at the highest market rates.

Dust and bullion can be forwarded to us from any part of the country, and returns made through Wells, Fargo & Co.'s Express.

Charges at U. S. Branch Mint.

For the convenience of those not familiar with the terms of the Mint, we subjoin the tariff of charges now in force at that Institution:

For refining bullion under 300 parts gold, 3 cents per ounce.

For refining bullion from 300⅛@600 parts gold, 5 cents per ounce.

For refining bullion from 600⅛@750 parts gold, 7 cents per ounce.

For refining bullion from 750⅛@830 parts gold, 11 cents per ounce.

For refining bullion from 830⅛@949⅛ parts gold, 14 cents per ounce.

The charge for coinage is half of one per cent., and the charge for making fine silver bars, the same.

Comparing the net value of deposits for coinage, with the proceeds of unparted gold bars sold in the market—assuming that the bars have cost ⅛ of one per cent.—they must be sold at the following par rates to equal the return which would have been made had they been deposited for coinage:

930 par to equal Mint return, at refining charge of 14 cents.

945 par to equal Mint return, at refining charge of 11 cents.

965 par to equal San Francisco Assay & R. Works return, at refining charge of 8 cents. [mar21-Sm-1y

The Daily Union Vedette

Local and Miscellaneous.

ADVERTISEMENTS.—The VEDETTE is the pioneer newspaper of Utah. Its extensive circulation in the mining camp and city of Montana and Idaho, (which it gives the telegraphic despatches a whole week ahead of the Pacific papers,) makes it the most prominent medium for advertising in these four Territories.

VENTABLE RUNAWAY.—Notwithstanding we have been on the look-out, for some time past, to see a runaway of some description, we actually beheld one on Tuesday, and yet intended to chronicle it in our Wednesday's issue, until reminded of our omission yesterday by several of the attentive readers of the VEDETTE. But there is no doubt there was a genuine runaway on the part of two horses attached to a heavy wagon at their heels. The philanthropic individual who jumped into the wagon at the corner of Main and Second South streets, and caught the reins, and succeeded in stopping them, run a considerable risk of injury to himself, but no doubt the owners of the team rewarded him with many thanks.

DEPARTURES.—Mr. J. J. Tracey, the popular superintendent of Wells, Fargo & Co.'s office, leaves this morning for California to complete his surveyance of the route, and shortly return to the East, by the Overland route, via Salt Lake City. Mr. Theodore Tracey also takes his departure this morning in the same direction, with the intention of speedy return with his family, who are now in California. We wish them a pleasant journey and trust their absence from us will be short.

SMELTING AND REFINING WORKS.—By our advertising columns it will be seen that a new company has been formed in San Francisco, with a capital of $1,000,000, and which offer great inducements to every one having business in their line. The names of the officers and directors is a guarantee that all work entrusted to them will be faithfully and promptly attended to. *Read the advertisement*, it contains *much information* to all who deal in the precious metals.

AT THE SAME TIME.—Precisely at 8 o'clock yesterday morning, the coach from the East stopped in front of Wells, Fargo & Co's office; at the same instant the driver of the Western coach cracked his whip, and was off in the direction of California.

CHANGE OF EDITORDOM.—It is stated that Austin has disposed of his interest in the San Francisco *Morning Call* to P. B. Forster, and Forster has purchased an interest in the San Francisco *Dispatch*.

DEPARTURE EAST.—Mr. T. M. Morf, the obliging agent of Wells, Fargo & Co., leaves us this morning on a short visit to Denver. He goes express for the company.

FAVORS.—We are indebted to Mr. Drake, the enterprising newsdealer of Carson Nevada, for copies of the Literary Gem and the Waverly Magazine.

OCCIDENTAL RESTAURANT has reduced the price of board to $10 a week, *in advance*.

FERRY BOATS.—Some interesting facts in regard to the pilots on the Union Ferry Boats, running between New York and Brooklyn are given in the Brooklyn *Union*. It appears that in only one man in every ten, on an average, who are placed on board in the position, is found the qualifications considered necessary. A pilot is required to be a thorough boatman, sound in mind, not given to the use of intoxicating liquors. When an excellent boatman is obtained, he is put on deck and a chance given him to practice with another pilot. Such are the difficulties of navigating the East River, with its multitude of passing craft, its many counter currents, that from three to five years' practice in steering is required before the right man is found, before he is allowed to take possession of the pilot-house. Whenever a pilot becomes nervous or careless, as boatmen call it, either through drink when off duty, dissolute habits, or other causes, he is at once suspended. If his nerve fails or becomes dim, he meets with the same fate. To ascertain his power of vision he is subjected at intervals to tests of a severe and curious description during the progress of his trips, generally during the prevalence of fog or at night.

IMMIGRANTS.—During the year past there were, in round numbers, as many immigrants into this country as there were into New York, from Germany, as from all Ireland together—that is, 106,000 Germans, and 104,000 Irish and English; while all the rest of the world there were but 68,000. There were 68,000 Irish to 106,000 Germans: and these figures at New York include five-sixths of the whole immigration to this country. There never was a time of immigration as this German immigration. Many of them are possessed of means, and not a small portion have capitalists to the Far West. Almost all of them are strongly democratic, in the Eu-sense of the word. Many of them go West, and their presence there has been a controlling element that, but for them, would have gone Secession. The German soldiers saved large sections that State at the outbreak of the Rebellion, and in the most critical periods of the war. The unsettled condition of Europe, especially the tyranny of their rulers, induces great numbers of them here.

MASONIC RITE OF MASONRY.—The following Masonic intelligence is given by the New York correspondent of the New York *Daily Advertiser*:

"The Scottish Rite" of Freemasonry in this city, which belongs to the Southern Jurisdiction. Their Order was suspended during the war, so that no communication could be had with Albert Pike, the Sovereign Inspector General. But the Consistory has resumed its labor, and a Lodge of Perfection is about to be organized. The Royal Arch Masons propose to "secede" from the Grand Master of Maryland and the District of Columbia, and to form a Grand Chapter of their own. The principal reason for this is that Maryland Royal Arch Masons cling to a system of work, which has been abandoned by Virginia, South Carolina, and other States which adhered to it for years, and which Masons from other jurisdictions find in this capital find that they cannot legally visit the Chapters here.

San Francisco Items.

The following we glean from the Bulletin of March 11th:

Harrison P. Cadmus, a scenic painter, was found dead in his bed yesterday morning, at the West End Hotel, on Brenham Place. Coroner Hardy held a post mortem examination to-day, which developed the fact that deceased came to his death from apoplexy. Cadmus was a native of New York or Massachusetts, and aged 31 years. He has recently been engaged painting scenery at Maguire's Opera House.

In order to introduce the cultivation of the mulberry tree, for silk-raising purposes, Messrs. Hentsch and Burton, bankers of this city, have imported a case of mulberry seeds, which they offer to distribute gratuitously to such persons as will plant it in this State. Mr. Hentsch has been identified with silk-raising in California from its very inception, having supplied Mr. Prevost, the pioneer silk-grower, with the eggs from which the present stock of worms have been raised. Great difficulty has heretofore been experienced in procuring good mulberry seed, and Hentsch & Burton, for their public spirit and generosity in giving seed to those who desire to plant, are entitled to great praise.

The trial of George Staunton *alias* Cockeye, for the murder of Samuel Brown, a colored man, at the West End Hotel in December last, is proceeding in the Fifteenth District Court. The circumstances of the affair were published at the time, and the evidence does not differ materially with them. It is charged by the prosecution that Staunton knocked the deceased down, and then took hold of his head and beat it against the floor, by which means he broke his neck and killed him instantly.

The Miners' Foundry have recently completed the manufacture of a large quantity of amalgamating machinery for the St. Louis and Montana Mining Company, and it will be shipped to Montana via Virginia City, Austin, and Salt Lake. The Montana miners have much more faith in California machinery than in that which is manufactured in New York, as the improvements in our mining machinery are suggested and practically proved by experience.

From the *Alta California* of same date we collate as follows:

A report reaches us from a passenger by the Sierra Nevada that a big battle took place lately at Durango, between the Liberals and Imperialists, in which the former were beaten. It is rumored also, that D'Artois, who was tried here some months ago for piracy, was among those killed on the side of the Liberals.

About one o'clock yesterday afternoon, a funeral cortege passed through Montgomery street, which attracted more than ordinary attention from bystanders and pedestrians on that thoroughfare. The procession was preceded by a hearse, on each side of which walked four colored pall bearers, all of whom wore the insignia of mourning on their left arms. A colored clergyman occupied one of a line of carriages extending along many blocks, and which vehicles were filled with the families of the most respectable of our population.

The large three-story brick building on the north side of Bush street, directly opposite the Cosmopolitan Hotel, is being raised through the powerful agent of the hydraulic press. This edifice, owned by Dr. C. M. Hitchcock, has always been in demand for offices and lodging rooms since its erection years ago.

The State organization of the Fenian brotherhood desire the public to be informed of the fact, that they are in no way connected with the Irish meeting to be held at Union Hall, on Howard street, this evening. The Brotherhood will hold their own meeting this evening at the Armory of the Irish Battalion, and intend adopting such measures as will effectually sustain and carry out to a successful issue the revolutionary movement now progressing for the disenthralment of their native land.

The steamer Sierra Nevada, from Mazatlan and way ports, brought up twenty turtle, and two hundred and fifty boxes of the mammoth and palatable oysters which abound on the Mexican coast. The steamer had aboard large quantities of fish and beef for the million.

Two friends of ours yesterday, on the land of the University Homestead Association, a short distance west of the Bay View Park Track, cut a number of bunches of the handsomest and healthiest asparagus we have ever seen. The soil in which this toothsome and tender perennial plant grows is as rich as any that can be found on this peninsula.

The Federal war vessels, Vanderbilt, Suwanee, and Saranac are now lying in this harbor. The latter will shortly make a cruise down the coast.

St. Petersburg, Russia, boasts the largest room in the world, a single roof, and unbroken by pillars or other obstructions. It is 650 feet in length, and 150 in breadth.

Miss Gustina Bartlett died at Bartlett's Island, mouth of Ellsworth river, on the 18th of January, aged 15 years. She was of enormous size and her weight 400 pounds.

GOLD AND METALLIC ORES IN AMERICA.—The precious metals are deposited in three broad belts, one known as the "Appalachian Gold Field," traversing the older States in the Union in a line parallell with the Atlantic coast, and appearing in Virginia and North Carolina; the other as the "Rocky Mountain Gold Field," traversing all the more recently organized Territories of the United States; and the other as the "Sierra Nevada Gold Field," extending through the country bordering on the Pacific. Iron is at the same time the most generally distributed through the public land States, and it has been estimated that there is iron ore enough in Missouri alone to supply a million tons per annum of manufactured iron for the next two hundred years; while lead, tin, and zinc are found in several of the States and Territories. Copper in immense quantities is found in the vicinity of the lakes east of the Mississippi, existing likewise in greater or lesser degree in the region extending from the Mississippi Valley to the Pacific. The precious metals exist chiefly in California, in Nevada, in northeastern and southwestern Oregon, in Washington Territory, in Idaho, Montana, Colorado, southern Utah, New Mexico, and Arizona, scattered over an estimated area of a million square miles, and now yielding an annual product in gold and silver, according to the best attainable estimates, of over $100,000,000.

REVOLTING SCENE AT AN EXECUTION.—The St. Vincent Witness reports the recent execution of a woman named Mary James, for murder. When the chaplain who attended the wretched woman to the scaffold had bidden her farewell, he drew back. She also quickly drew back, but the movement could scarcely have been perceived, for the order was given, the drop fell, and the culprit was seen standing unharmed on the platform—her eyes from the beginning were very imperfectly bandaged. Looking down, she drew back further from the trap, and her arms being free, she removed the piece of muslin with which her eyes were covered. From this time she appeared to dread the trap, having seen the danger, and she could not be induced to go forward. The Provost Marshal then summoned the turnkeys, who, with the hangman, were constrained to use force to get her on the trap-door. The instinct of self-preservation seemed to nerve her with strength, and a scuffle ensued on the platform of the gallows for ten minutes, when she was ultimately tripped up, and she fell heavily on one of the side-beams of the gallows and rolled on the scaffold, where she lay motionless. She was then pushed over on to the trap door, which was pulled, and she fell through head foremost. She never made a struggle or movement after she was thrown down, and many persons supposed that life was extinct before she fell through the drop.

MRS. EMILY MACTAVISH.—This lady, well known in years gone by, died on February 2d, at her residence in Baltimore, at the advanced age of 74. She was the grand daughter of Charles Carroll, of Carrolton, Mayland, one of the signers of the Declaration of Independence, and was closely connected with the British nobility. One of her sisters was the late Marchioness of Wellesley; another was lady Stafford, while a third is the present Duchess of Leeds, and the only one surviving. Mrs. Mactavish married John Mactavish, an Englishman, who was for many years British Consul at Baltimore. The deceased lady was well known for the liberal manner in which she aided all charitable enterprises, many of her gifts to benevolent institutions having bordered on the munificent. In addition to these acts of mercy she provided for the wants of a large number of poor persons, who were her regnlar pensioners.

NEW YORK, March 4.—The Herald's Mexican correspondence says Miramon recently informed a gentleman that the Southern confederates were yet hand in hand with the Imperialists, and that General Hindman was corresponding with them, in the hope that those defunct establishments might so work together as to make both a success.

ANOTHER CANDIDATE.—Charles Westmoreland, of Humboldt county, is put forward by his friends as a candidate for Congress,
